Top 100 Tech Companies Founded and Managed by Indians in the U.S.

The Indian entrepreneurial community residing in the U.S. is ending 2014 on a high note. With markets having recovered and disruptive technologies such as cloud, big data, analytics, mobile, IoT becoming mainstream, a new wave of innovative companies have emerged in the market and are winning over the CIOs. Indian techies are now the toast of Silicon Valley for having built several path breaking product companies that aim at solving critical enterprise issues.

It is time once again to recognize the best among thriving Indian entrepreneurial community in the U.S. Siliconindia presents to you the si100 list for 2014. Like every year, the annual si100 issue includes carefully scrutinized companies which display the characteristics of long-term visibility, sustained growth, business focus, profitability and customer and employee value-creation. The exhaustive list consists of companies which have made a mark in their area of expertise, be it Customer Relationship Management, Enterprise Resource Planning, Cyber Security, Networking, Mobile Apps, Hybrid Cloud or Web-Scale IT,

offering an opportunity for strategic business advantage for early adopters and unveiling the potential for significant market disruption. While some are bringing revolution to the business processes through their products, others are making sure through their services that technological adoptions are perfectly oriented towards the objectives.

We salute each and every one of these entrepreneurs for their leadership, and particularly for their unrelenting dedication in building their companies. Each and every entrepreneur on this list demonstrates the utmost passion for building lasting enterprises and exudes confidence that they will succeed in tackling the current economic conditions.

A distinguished panel comprising of accomplished Indian CEO's & CIO's of public companies, VC's, analysts, founders of other VC funded companies including siliconindia editorial board decided on the top 100 companies. We congratulate the 100 finalists for achieving this vote of respect from industry leaders and commend the enterprising spirit of the Indian community and its dynamic leaders.

ShowMyPC

Description:
ShowMyPC provides seamless screen sharing services for users, that can integrate into any website, software or hardware device enabling instant collaboration

ShowMyPC: Real Time Collaboration in the Cloud "For Everyone"

ShowMyPC is a Campbell, CA based startup that has evolved from a seamless screen sharing solution to a comprehensive product that can integrate into any website, software or hardware device that needs collaboration

ShowMyPC has catered to the industry by providing commendable tools and solutions that have solved most communication challenges of the

" **ShowMyPC strides with pride in providing free and cost effective premium tools using open technologies** "

current market.

Screen Sharing, Remote Support and Meeting services are becoming primary priorities of many, as they enable connectivity and keep the business running efficiently on a global scale. ShowMyPC provides services that allow any user with a computer or smart device to help and support anyone across the world in an instant. This free service does not require any login or registration formalities, but only an internet connection in order to reach any corner worldwide. The company also has a subscription based model, which is a low barrier to entry for anyone who needs advanced features to conduct meetings, demonstrations online, or

provide remote support.

Full Suite of Online Sharing Services
ShowMyPC strides with pride in providing free and cost effective premium tools using open technologies. The services include free and premium Remote PC access, Desktop Sharing, and Screen Sharing. "We also provide ancillary services such as Helpdesk, Monitoring, Invoicing, so that our clients do not have to worry about managing their day to day business operations, and can focus on what matters most- the customers," delineates Swati Tewari, Co-Founder of the company. The firm also offers in house Enterprise solutions ensuring complete privacy and customized integration.

The company is enriched with subscribers in various industry verticals such as Entertainment, Medicine, Finance, Education, Telecommunications, and IT. Few of ShowMyPC's customers from different verticals include Keyence- a leading supplier of sensors, measuring systems, laser markers, microscopes, and machine vision systems worldwide, EXFO- a provider of next-generation test and service assurance solutions for wireless and wireline network operators and equipment manufacturers in the global telecom industry, and Unified Grocers- a retailer owned wholesale grocery cooperative that supplies

independent supermarkets in the Western United States. ShowMyPC's potential clients are all the individuals who have a need to remotely help, support, or access remote computers in this highly connected world to leverage the benefits of integration.

Exciting Future
ShowMyPC has a vision that will help drive the next generation of free services as a standalone product for the masses and as an integrated option for power consumers. The company intends to keep their current push to offer free services and tools to improve the connectivity in every remote geographical area of the world. Another vital focus of the company in the imminent years is to further enhance the existing cloud network with ancillary services to offer customers a one-stop-shop for all their networking and collaboration needs. si
